PUBLIC WORKS DEPARTMENT

## COUNCIL COMMUNICATION

TO : City Council

FROM: City Manager

MEETING DATE: September 28, 1988

AGENDA TITLE: Establish a "No Parking" Zone on Mills Avenue at the General Mills Entrance

RECOMMENDED ACTION: That the City Council establish a 175-foot "No Parking" zone on Mills Avenue from the existing "No Parking" zone located 105 feet north of the ~~new~~ entrance to 70 feet south of the new entrance.

BACKGROUND INFORMATION: General Mills has requested a "No Parking" zone be installed at the above location to alleviate sight problems. General Mills employees have complained that it is difficult to see southbound vehicles when vehicles are parked north of the driveway.

This driveway was recently constructed in winter 1987/88. This is the main access for employees. The old access north of this driveway is now used for construction workers and will be closed when the construction is complete. The "No Parking" zone which was established at the old access to improve the sight problems will be removed once the driveway is closed.

Staff has field checked this area numerous times and has observed parked vehicles and trucks only on a few occasions. A parked vehicle does create a sight problem for motorists exiting General Mills. There have been no reported accidents at this driveway entrance. Staff determined a 175-foot "No Parking" zone is needed to alleviate sight problems (see attached exhibit).

Since this is a high volume driveway and the on-street parking is not needed, it is recommended the "No Parking" zone be approved.
